TOOWOOMBA CRICKET INCORPORATED PLAYING RULES

PREAMBLE

These regulations should be read in conjunction with The Laws of Cricket (2017 code 3rd Edition 2022). These regulations govern cricket matches, played under the auspices of Toowoomba Cricket Incorporated (TCI).

It is expected that that Clubs, players, match officials and administrators adhere to the spirit of cricket in applying the TCI playing regulations. The spirit of the laws of cricket can be found at - <https://www.lords.org/mcc/the-laws-of-cricket/spirit-of-cricket>.

Respect for Umpires, opposition players and the game itself will be the underlying factor when interpreting rules.

The Team captain role is significant and attention is drawn to rule 13 as far as ensuring the game is played in the best possible spirit.

THE SPIRIT OF CRICKET

Cricket owes much of its appeal and enjoyment to the fact that it should be played not only according to the Laws, but also within the Spirit of Cricket.

The major responsibility for ensuring fair play rests with the captains, but extends to all players, umpires and, especially in junior cricket, teachers, coaches and parents.

- Respect is central to the Spirit of Cricket.
- Respect your captain, team-mates, opponents and the authority of the umpires.
- Play hard and play fair.
- Accept the umpire's decision.
- Create a positive atmosphere by your own conduct, and encourage others to do likewise.
- Show self-discipline, even when things go against you.
- Congratulate the opposition on their successes, and enjoy those of your own team.
- Thank the officials and your opposition at the end of the match, whatever the result.
- Cricket is an exciting game that encourages leadership, friendship and teamwork, which brings together people from different nationalities, cultures and religions, especially when played within the Spirit of Cricket.

15 PROCESS FOR DISPUTE RESOLUTION

If a dispute arises regarding the interpretation of the playing rules, then the following is to take place to solve the dispute:

20.3 If the nominated team fails to cover the wicket by 6:00pm on the day prior to play, the team will receive an automatic loss of 2 competition points and any such further penalty the competition committee deems appropriate due to adverse circumstances. An example of an adverse circumstance is when the team that was responsible to cover the wicket obtains favourable conditions or a favourable result due to their failure to cover the turf wicket.

- 20.4 If the nominated team fails to protect the wicket on the morning of play and does not use its best endeavours to protect the wicket, in its sole discretion, the competition committee may deduct 2 competition points from the said team and any such further penalty the competition committee deems appropriate due to adverse circumstances.

40 LIGHTENING POLICY

40.1 Umpires, Officials and Players must follow the “40/30” rule when lightning is about.

The “40/30 40 Rule” states that when lightning is followed by thunder and the time difference between the lightning and the following thunder is 40 seconds or less, play must be suspended and all participants must leave the field of play and moving to a safe area. Play must not be resumed until 30 minutes have elapsed after the last lightning being sighted. On each occasion that lightning is seen, whilst off the field, the 30 minute period is to recommence.

Be alert to changes in sky conditions foreshadowing thunderstorm development directly overhead. When lightning threatens, go immediately to a safer location. Do not hesitate. Lightning casualty statistics are full of stories where persons who were just about to make it to safety, when they were struck. Even an extra few minutes lead time can be life-saving.

51 INTERVALS FOR DRINKS

At the half way point of each innings (22 overs for A Grade 45 Overs; 20th over for R, B, C & D Grade 40 Overs)

52 LENGTH OF INNINGS AND OVER RATES

52.1 The required number of overs per innings shall be as follows:

- (a) A Grade 45 Overs
- (b) Reserve, B, C, D grade 40 overs;
- (c) Team batting second is NOT entitled to bat for entire number of overs if a result has been achieved earlier.

53 LENGTH OF INNINGS – UNINTERRUPTED MATCHES

- 53.1 Each team shall bat for the number of overs outlined in clause 52.1(a) unless all out earlier. A team shall not be permitted to declare its innings closed.
- 53.2 If the team fielding first fails to bowl the required number of overs by the scheduled time for cessation of the first session, play shall continue until the required number of overs has been bowled. The umpire will note number of overs bowled at cessation time and advise bowling team captain. Part overs are included. The Team batting second will have only the number of overs calculated at cessation to achieve the total of the target. E.g. if Team A bowls 38 overs by cessation time they will still bowl 40 overs. Team B scores 200 in the 40 overs. Team A will need to score 201 in 38 overs (max).
- 53.3 Subject to clause 53.2 not being invoked, if the team batting first is dismissed in less than its maximum overs, the team batting second shall be entitled to bat for the maximum amount of overs (40 Or 45 depending on grade) unless a result is obtained prior to this occurring.
- 53.4 If the team fielding second fails to bowl its required overs by the scheduled cessation time, the hours of play shall be extended until the required number of overs has been bowled or a result achieved.
- 53.5 Deliberate failure to bowl the required number of overs will result in points penalties being imposed.

54 DELAYED OR INTERRUPTED MATCHES

- 54.1 The object shall always be to rearrange the number of overs so that both teams have the opportunity of batting for the same number of overs. A team shall not be permitted to declare its innings closed. **A minimum 15 overs has to be bowled** to the side batting second to constitute a match.
- 54.2 The calculation of the number of overs to be bowled shall be based on an average rate of 16 overs per hour in the total time available for play.
- 54.3 If the team fielding second fails to bowl the required number of overs by the scheduled cessation time, the hours of play shall be extended until the overs have been bowled or a result achieved.
- 54.4 The team batting second shall not bat for a greater number of overs than the first team unless the latter has been all out in less than the agreed number of overs.

55 DELAY OR INTERRUPTION TO THE INNINGS OF THE TEAM BATTING FIRST

- 55.1 If the number of overs of the team batting first is reduced, a fixed time will be specified for the completion of the first session.
- 55.2 If the team fielding first fails to bowl the required number of overs by the scheduled time for cessation of the first session, play shall continue until the required number of overs has been bowled.
- 55.3 If the team fielding first fails to bowl the required number of overs by the time normally allowed to bowl the overs, they will be required to complete the required number of overs but will then be entitled to receive only the number of overs they had bowled by the time normally allowed to bowl the overs. If circumstances are out of the control of the bowling team the umpires will revert to conditions for delayed or interrupted matches and divide the time evenly so both teams have the opportunity to face the same number of overs.

56 DELAY OR INTERRUPTION TO THE INNINGS OF THE TEAM BATTING SECOND

56.1 If there is a suspension in play during the second innings, the overs shall be reduced at a rate of 16 overs per hour for time lost, except that, when the innings of the team batting first has been completed prior to the scheduled or rescheduled time for the interval between innings, the reduction of overs will not commence until an amount of time equivalent to that by which the second innings started early has elapsed.

57 DELAYED OR INTERRUPTED MATCHES – CALCULATION OF THE TARGET SCORE

This revised target is to be calculated using average run rate. Team batting first scores 200, the run rate = 5. Rain interrupts play and the team batting second only has the opportunity to bat for 25 overs. They will need to score 126 runs. 25 (overs) multiplied by 5 (average runs per over) + 1.

58 NUMBER OF OVERS PER BOWLER

58.1 No bowler shall bowl more than 9 overs per innings in a **45 OVER MATCH**. No bowler shall bowl more than 8 overs in an innings of a **40 OVER MATCH**

58.2 In a delayed or interrupted match where the overs are reduced for both teams or for the team bowling second, no bowler may bowl more than one-fifth of the total overs allowed.

58.3 Where the total overs are not divisible by 5, one additional over shall be allowed to the maximum number per bowler necessary to make up the balance.

58.4 In the event of a bowler breaking down and being unable to complete an over, another bowler will bowl the remaining deliveries. Such part of an over will count as a full over only in so far as each bowler's limit is concerned.

59 RESTRICTIONS ON THE PLACEMENT OF FIELDSMEN

At the instant of delivery, there may not be more than 5 fieldsmen on the leg side.

60 FIELDING RESTRICTIONS

60.1 Two semicircles shall be drawn on the field of play. The semicircles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semicircles shall be 27 metres). The semicircles shall be linked by two parallel straight lines drawn on the field. The fielding restriction areas should be marked by continuous line of plastic markers. Each marker should be placed at approximately 5 – 8 metre intervals.

60.2 The Umpires are responsible for bringing the markers to all matches and marking out the field. If no umpires are appointed then it is the responsibility of the two team captains to bring and set out the markers. Umpires / captains should ensure that the markings remain consistent throughout the course of the match and should take seriously any attempts by players to intentionally move the domes.

60.3 In A and Reserve grade matches for the first 12 overs only 2 fieldsmen are permitted to be outside the fielding restriction area at the instant of delivery. Overs 13 to 24 only 3 fieldsmen are permitted outside the fielding restriction area. For the remaining overs only 5 fieldsmen are permitted to be outside the field restriction marking at the instant of delivery.

60.4 In B, C and D-grade matches only 5 fieldsmen are permitted to be outside the field restriction marking at the instant of delivery.

60.5 Where, in an interrupted innings, on resumption of play the recalculated number of Fielding Restriction Overs (as set out above) is no longer achievable, the actual number of Fielding Restriction Overs for that innings will be the closest achievable whole number.

NOTE: If field markings are nonexistent or incorrect, the umpires shall take responsibility of assessing the correctness of fielding positions throughout the day's play. Games are not to revert to limitless fielding restrictions.

61 NO BALL

61.1 A bowler shall be allowed to bowl one fast short pitched delivery per over.

61.1.1 A fast short-pitched ball is defined as a ball, which after pitching, passes or would have passed above shoulder height of the batsman standing upright in his normal guard position at the crease but not clearly above his head.

61.1.2 The umpire at the bowler's end shall advise the bowler and the batsman on strike when one fast short pitched delivery has been bowled.

61.1.3 In addition, for the purpose of this regulation, a ball that passes clearly above head height of the batsman, other than a fast short pitched ball as defined in 61.1.1 above, that prevents him from being able to hit it with his bat by means of a normal cricket stroke shall be called a Wide and will also count as the one allowable ball above shoulder height for that over.

61.1.4 In the event of a bowler bowling more than one fast short pitched delivery in an over as defined in clauses 61.1.1 or 61.1.3 above, the umpire at the bowler's end shall call and signal No ball on each occasion. A differential signal shall be used to signify a No ball for a fast-short pitched delivery. The umpire shall call and signal No ball and then tap the head with the other hand. In addition, when the ball is dead, the umpire shall caution the bowler, indicating that this is a first and final warning, and inform the captain of the fielding team, the batsmen at the wicket and the other umpire of what has occurred. This caution shall apply throughout the innings. Should there be any further instance by the same bowler in that innings, the umpire shall call and signal No ball and when the ball is dead, direct the captain to take the bowler off forthwith. If necessary the over shall be completed by another bowler, who shall neither have bowled the previous over or part thereof nor be allowed to bowl the next over or part thereof.

61.1.5 Any delivery, which passes or would have passed, without pitching, above waist height of the batsman standing upright at the popping crease, is unfair. Whenever such a delivery is bowled, the umpire shall call and signal No ball.

61.1.6 The bowling of a delivery as defined in 61.1.5 is also dangerous if the bowler's end umpire considers that there is a risk of injury to the striker. In making that judgement the umpire shall: shall disregard any protective equipment worn by the batsman and be mindful of the:

- (a) speed, height and direction of the delivery;
- (b) skill of the batsman; and
- (c) repeated nature of such deliveries.

61.1.7 If the umpire considers a non-pitching delivery, or a series of non-pitching deliveries, to be dangerous under 61.1.6, when the ball is dead, the umpire shall repeat the No ball signal to the scorers and then caution the bowler, indicating that this is a first and final warning. The umpire

shall also inform the other umpire, the captain of the fielding side and the batsmen of what has occurred. This caution shall apply to that bowler throughout the innings.

- 61.1.8 Should there be any further dangerous such delivery by the same bowler in that innings, the umpire shall:
- (a) call and signal No ball;
 - (b) when the ball is dead, direct the captain of the fielding side to suspend the bowler immediately from bowling;
 - (c) inform the other umpire for the reason for this action. The bowler thus suspended shall not be allowed to bowl again in that innings; and
 - (d) If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.
 - (e) report the occurrence to the batsmen and, as soon as practicable, to the captain of the batting side.
- 61.1.9 The warning sequence in clause 61.1.6 is independent of the warning and action sequence in 61.1.4.
- 61.1.10 A No ball/Dead Ball shall be called on a concrete surfaced pitch if a ball delivered by the bowler lands on the grass area on the edge of the concrete pitch area. The ball shall be recorded as a No ball however the ball is dead upon pitching meaning no runs/wickets can take place after pitching.

61.2 No Ball Free Hit in one-day fixtures (applies to ALL grades).

The delivery following a NO BALL (called under any circumstances eg fielding placement No balls as well) shall be a free hit for which ever batsman is facing it. If the delivery for the free hit is not a legitimate delivery (any kind of NO BALL or WIDE), then the next delivery will become a free hit for whichever batsman is facing it. For any free hit, the batsman may only be dismissed under the normal circumstances for a No ball even if the delivery is called a wide. Changes to fielding positions are only permitted if a different batsman is on strike for the free hit delivery OR if the NO BALL is called due to fielding law contravention (eg. 3 behind square on leg side can be adjusted so as not to create the same infringement).

62 WIDE BOWLING – JUDGING A WIDE – A RESERVE AND B-GRADE

62.1 A, RESERVE AND B-GRADE

- 62.1.1 Umpires are instructed to apply a very strict and consistent interpretation in regard to this Law in order to prevent negative bowling wide of the wicket in A, Reserve and B-grade.
- 62.1.2 Any off side or leg side delivery that in the opinion of the umpire does not give the batsman a reasonable opportunity to score shall be called a Wide.
- 62.1.3 As a guide, on the leg side a ball landing clearly outside the leg stump going further away shall be called a Wide. In the interest on completing matches on time Umpires in B-grade can apply a slightly more liberal ruling as to leg side wides. This shall be consistent across both innings.

- 62.1.4 As a guide, a ball passing the batsman on the off side more than 75cm wide of the off stump shall be called a Wide. Lines shall be drawn from the popping crease to the bowling crease, parallel with the return crease, measured 17 inches (43.18 cm) from the return crease on both sides of the wicket.

C & D-GRADE

62.2 C & D-GRADE

- 62.2.1 Any off side or leg side delivery that in the opinion of the umpire does not give the batsman a reasonable opportunity to score shall be called a Wide.
- 62.2.2 In C & D-grade bowlers are allowed to bowl 2 deliveries down the leg side in the one over to either batsmen, when a third delivery is bowled down the leg side in the one over it shall automatically be called a wide by the umpire.

63 THE RESULT

- 63.1 A result can be achieved only if both teams have had the opportunity of batting for **at least 15 overs** (preliminary matches) unless one team has been all out in less than 15 overs or unless the team batting second scores enough runs to win in less than 15 overs.
- 63.2 All matches in which both teams have not had an opportunity of batting for a minimum of 15 overs, shall be declared No Result.
- 63.3 Tie, in matches in which both teams have had the opportunity of batting for the agreed number of overs, subject to the provisions of sections **54-58** the team scoring the higher number of runs shall be the winner. If the scores are equal, the result shall be a Tie and no account shall be taken of the number of wickets that have fallen. If two teams finish on equal points, a decision is to be made by the run rate.

T20 COMPETITION RULES

Clauses 64 to 76 only apply to T20 matches.

64 THE COMPETITION AND TEAM COMPOSITION

- a) Will consist of three divisions. Division 1, Division 2 and Division 3. Clubs may enter multiple teams in each division
- b) A maximum of 4 Premier league players can be registered to play in the competition per club, excluding players with a known history at a local club. A premier league player will constitute a first or second grade player from Brisbane or Other Premier competitions across Australia.

65 LENGTH OF INNINGS AND OVER RATES

- 65.1 The required number of overs per innings shall be 20 (twenty) overs.

66 DELAYED OR INTERRUPTED MATCHES

- 66.1 The object shall always be to rearrange the number of overs so that both teams have the opportunity of batting for the same number of overs within the 3 hour time limit for each game.
- 66.2 If the number of overs of the team batting first is reduced, a fixed time will be specified for the completion of the first session.

66.3 If the team fielding first fails to bowl the required number of overs by the scheduled time for cessation of the first session, play shall continue until the required number of overs has been bowled.

66.4 If the team fielding first fails to bowl the required number of overs by the time normally allowed to bowl the overs, they will be required to complete the required number of overs but will then be entitled to receive only the number of overs **they** had bowled by the time normally allowed to bowl the overs. If circumstances are out of the control of the bowling team the umpires will revert divide the time evenly so both teams have the opportunity to face the same number of overs.

66.5 If the team fielding second will complete their overs regardless of time.

67 DELAYED OR INTERRUPTED MATCHES – CALCULATION OF THE TARGET SCORE

67.1 This revised target is to be calculated using the lowest scoring overs deduction method. The scoring team is required to keep a tally of the number of runs each over of the innings being played. Scorebooks should have an appropriate box for recording the score at the end of each over.

67.2 EXAMPLE - Team batting first scores 200 runs in 20 overs. They have faced 1 maiden over, 1 over that only 1 run was added and 1 over that 5 runs were added as the lowest scoring overs in the innings. Rain interrupts play and the team batting second only has the opportunity to bat for 17 overs. They will need to score 195 runs calculated as (Team A Total - lowest scoring overs + 1) i.e. $200 - 6 + 1$.

68 NUMBER OF OVERS PER BOWLER

68.1 No bowler shall bowl more than 4 overs in an innings.

68.2 In a delayed or interrupted match where the overs are reduced for both teams or for the team bowling second, no bowler may bowl more than one-fifth of the total overs allowed.

69 RESTRICTIONS ON THE PLACEMENT OF FIELDSMEN

69.1 At the instant of delivery, there may not be more than 5 fieldsmen on the leg side.

70 FIELDING RESTRICTIONS (All grades)

70.1 For the **first 6 overs, only 2 fieldsmen** are permitted to be outside the fielding restriction area at the instant of delivery. For the **remaining overs, only 5 fieldsmen** are permitted to be outside the field restriction marking at the instant of delivery.

70.2 Where, in an interrupted innings, on resumption of play, the recalculated number of Fielding Restriction Overs (as set out above) is no longer achievable, the actual number of Fielding Restriction Overs for that innings will be the closest achievable whole number.

71 NO BALL

71.1 The penalty for ANY NO BALL will be one run.

72 NO BALL – SHORT PITCHED DELIVERIES

72.1 A bowler shall be allowed to bowl one fast short pitched delivery per over.

A fast short pitched ball is defined in clause 61.1.

73 NO BALL – FREE HIT

73.1 The delivery following a NO BALL (called under any circumstances e.g. fielding placement No balls as well) shall be a free hit for which ever batsman is facing it. If the delivery for the free hit is not a

legitimate delivery (any kind of NO BALL or WIDE), then the next delivery will become a free hit for whichever batsman is facing it.

- 73.2 For any free hit, the batsman may only be dismissed under the normal circumstances for a No ball even if the delivery is called a wide. Changes to fielding positions are only permitted if a different batsman is on strike for the free hit delivery OR if the NO BALL is called due to fielding law contravention (e.g. 3 behind square on leg side can be adjusted so as not to create the same infringement).

74 WIDE BOWLING – JUDGING A WIDE

74.1 RESERVE AND B-GRADE

- 74.1.1 Umpires are instructed to apply a very strict and consistent interpretation in regard to this Law in order to prevent negative bowling wide of the wicket in Reserve and B-grade.
- 74.1.2 Any off side or leg side delivery that in the opinion of the umpire does not give the batsman a reasonable opportunity to score shall be called a Wide.
- 74.1.3 As a guide, on the leg side a ball landing clearly outside the leg stump going further away shall be called a Wide. In the interest on completing matches on time Umpires in B-grade can apply a slightly more liberal ruling as to leg side wides. This shall be consistent across both innings.
- 74.1.4 As a guide, a ball passing the batsman on the off side more than 75cm wide of the off stump shall be called a Wide. Lines shall be drawn from the popping crease to the bowling crease, parallel with the return crease, measured 17 inches (43.18 cm) from the return crease on both sides of the wicket.

74.2 C & D-GRADE

- 74.2.1 Any off side or leg side delivery that in the opinion of the umpire does not give the batsman a reasonable opportunity to score shall be called a Wide.
- 74.2.2 In C & D-grade bowlers are allowed to bowl 2 deliveries down the leg side in the one over to either batsmen, when a third delivery is bowled down the leg side in the one over it shall automatically be called a wide by the umpire.

75 TIMED OUT (LAWS OF CRICKET, LAW 40)

- 75.1 Law 31 will apply except that the incoming batsman must be in position to take guard or for his partner to be ready to receive the next ball within one minute and thirty seconds of the fall of the previous wicket. The incoming batsman is expected to be ready to make his way to the wicket immediately a wicket falls, and is expected to jog to the wicket.

76 THE RESULT

- 76.1 A result can be achieved only if both teams have had the opportunity of batting for **at least 6 overs** (fixture matches and finals) unless one team has been all out in less than 6 overs or unless the team batting second scores enough runs to win in less than 6 overs.
- 76.2 All matches in which both teams have not had an opportunity of batting for a minimum of 6 overs, shall be declared No Result.
- 76.3 Tie (fixture matches only), in matches in which both teams have had the opportunity of batting for the agreed number of overs, subject to the provisions of clause 67 the team scoring the higher number of runs shall be the winner. If the scores are equal, the result shall be a Tie and no account shall be taken

of the number of wickets that have fallen. If two teams finish on equal points, a decision is to be made by the run rate.

- 76.4 In designated Semi Final and Final Matches should a Tie occur as per Rule 76.3 a “Super Over” shall be played. Each team will nominate 3 batsmen to face an over from a nominated bowler. If 2 wickets are taken the over is completed. The winning team will be the team that scores more runs in the Super Over. Should a tie occur in the Super Over then the winning team is the one that has hit the most sixes for the match (including Super Over). If this is also tied then the team hitting the most fours will be the winner.
